University of Bern
Faculty of Science

The Department of Chemistry and Biochemistry, University of Bern, seeks to appoint a

Full Time Staff Scientist (“Dozent”) in X-ray Diffraction Analysis / Structural Chemistry

The candidate must have a PhD in Chemistry or cognate discipline and profound experience in X-ray diffraction, single crystal and powder diffraction, as well as in structural chemistry. Duties include the running and supervision of the crystal structure determination service for the departmental research groups and teaching in the areas of crystallography and structural/inorganic chemistry at the BSc, MSc, and PhD levels. The successful candidate is expected to develop an independent research program (e.g. *dynamical crystallography, disorder and diffuse scattering, quantum crystallography, synthesis*) and to demonstrate experience in acquiring external funding.

The University of Bern is an equal opportunity employer and strives to increase the number of women in the faculty. Qualified female researchers are especially encouraged to apply.

The earliest start date is July 2019.

Interested candidates should submit their application (including their curriculum vitae, publication list, a copy of the 3 most important publications, an outline of research plans, and teaching experience) as a single PDF file to Prof. Martin Albrecht (email: martin.albrecht@dcb.unibe.ch).

Deadline for applications is November 30, 2018.

Informal inquiries can be addressed to Prof. Martin Albrecht per email (address above) or phone: +41 (0)31 631 4644.
